A successful model and actress Yevgenia Kuzmina, who for many years lived in the United States in the near future is going to come to Russia. But not only nostalgia for the homeland was the cause of this visit. The plans Eugenia acquaint the Russian audience with the new reality Model moms, author of the idea that it is. In addition to producing, Kuzmina became one of the two main characters of the series, along with the top model Keira Dikhtyar.

"In recent years, the genre of reality TV is booming, and the most famous producers and directors take up their creation. Despite my experience in cinema, I have never starred in a reality, although there were often offers, - says Evgeny Kuzmin - but this genre so much on American television that I did not want to do another Keep it up with Kardashians. And those scenarios that they gave me, my children are expected to participate, and their were not in the best form - spoiled, unruly, etc., in a word, the audience more interesting to look at swearing, fighting, fighting, scandals, and I absolutely do not tempted. Important for me, I am sending a message of the viewer. I had an idea to do something different from the usual viewer shows about the rich life in Beverly Hills, or constant "dismantling" of housewives. I told Cyrus, let's do something good, we show our life, such as it is. We have and so much drama around, so why continue this theme? A name was born in the wake of my involvement in the film Bad moms (mom is very bad), it turned Model moms. There are so many young women, working mothers, with different problems, which are interesting to tell the viewer. As a result, the two of us with Kira has produced this project. The very concept of the project and our characters are of interest from TV bosses. For example, in America, we have agreed with the studio Lionsgate, that as soon as they have finished shooting the show, Kevin Hart, will start work on the Model Moms. Despite the fact that the show such a plan out on many channels, studio willingly gave "green light" to the project, especially after the media tycoon and founder of the famous talent agencies William Morris Ari Emanuel suggested that believes in its potential. at the moment, we do the final assembly of the pilot series, and in December I am going to come to Moscow, where he will be engaged in the promotion of the project. Already, several channels have expressed interest, so I have no doubt that Russian viewers will soon see our reality show. Model moms tells about the life of Russian mothers models, came to America from Russia, with the desire to make a career and forced to raise children in a foreign country. About all the difficulties that they face and that luck always favors those who do not abandon, do not give up. "
